## HIGHLIGHTS

Beacon has been a true pleasure to live with since the day he joined us from England as a pup. He was an easy pup, always wanting to follow the rules, understand what is being asked of him and how to do things right. Beacon is lovely to hunt over, he has a strong work ethic, great nose, natural backing, and determination in the field as he enthusiastically goes about his work. Beacon measures in at 25.5" and weighs 65lbs. He loves the water and retrieving. Beacon is a very easy dog to live with, with a nice off switch but always ready to go and do; dock diving, Fast CAT, hiking, road trip, whatever is before him. Beacon was owner handled through his CH, including a Sporting Group placement.

### HIGHLIGHTS

Laszlo came to American ins April of 2023, by way of The Netherlands and has been living his best life in Virginia Beach ever since. He enjoys daily trips to the nearby lake, swimming, running on the beach, and is always on the hunt. This past May was a huge month for him as he earned a Prize I with a 112 score at the Chesapeake chapter Natural Ability test before heading to New York City the following week and partake in the “Meet the Breed” showcase at the Westminster Dog Show. On June first he tested for Started Gun Dog at a UKC event and earned his first pass for retriever testing. He will be finishing this series this fall when the weather finally cools down in Virginia.

Laszlo enjoys everyday training in the yard, whether it be basic place, heelwork, small retrieves, or simple tracks, if it is a task that makes us happy as owners, it makes him tenfold happier. He has a strong work drive in the field and often times does not want to be told “The hunt is over.” Laszlo has surprised us all bringing birds back to hand from the day we brought him home, and now is developing a beautiful low-profile point. We are excited to see where the future takes us and the adventures, we will go on together.
